Solo Piano Concert Performance

1. Stage requirement and stage plan

- Standard classical solo piano concert setup.
- Piano to be placed right in the middle of concert venue.
- Stage should be swept clean and cleared of all equipment and debris, before the artist's arrival.

2. Piano requirements

- One nine foot (9') Steinway and Sons concert grand concert or Fazioli pianoforti F308 in excellent condition are preferred and need to be tuned to 440Hz
- An adjustable piano bench will be required.
- Lid to be fully lifted up

3. Lighting requirements:

- Good concert lighting is required. Usually, a general color stage wash with overhead and 'front of house' electric suffices.
- A spotlight or tightly focused 'special' that lights the piano without washing out the projection screen is requested during certain portions of the video presentation.
- Artist may provide a lighting plot in advance with the willingness to work with what lighting is available at the venue.

4. Dressing room

- One private dressing room with easy access to the stage, furnished with a chair, table, mirror with proper lighting, clothes rack with hangers, room temperature bottled water, and wastebasket. If possible, a warm-up piano would be much appreciated too. The dressing room should have access to a private bathroom (for artist only).

5. Stage Plan

Bench
